What Requires A Permit?

All shoreline facilities, structures and activities on Entergy’s Project 271 lands or water require a permit from Entergy prior to installation or placement. Some of the most common types of facilities, structures and activities that require a permit include, but are not limited to:

- Piers
- Boat Docks
- PWC Ramps/Docks
- Boardwalks
- Decks
- Inflatable Platforms (e.g. trampoline)
- Walkways
- Boat Lifts (when outside the facility’s slip)
- Steps
- Heat/Air Exchange Piping
- Waterlines
- Utility Facilities
- Landscape Plantings
- Landings
- Bulkheads
- Seawalls
- Fill
- Dredge
- Riprap
- Excavation
- Water Withdrawal
- Roads
- Vegetation Removal
- Bridges
- Regulatory Buoys
- Mooring Buoys

NOTE:
In addition, permits are required for the modifications, replacement and additions to existing facilities, structures or activities.
