Environmental:	\$ 163,987
Arts and culture:	\$ 62,495
Disaster relief/recovery:	\$ 22,367
Grand total:	\$ 3,381,091

Making a difference in Arkansas communities

Volunteering is one of the most important ways Entergy employees power life in our communities. In 2022, employees in Arkansas dedicated more than 25,292 hours of volunteer service valued at more than \$757,495.

Activities included:

- Hunger relief support through statewide food pantry donations and volunteerism.
- Improving literacy and education through Academies of Central Arkansas, Single Parent Scholarship Fund, and school programs across the state.
- Providing adequate and safe housing through financial and hands-on support for Habitat for Humanity.
- Supporting workforce programs for minorities and women to help them achieve greater success.

Stepping up to help with bills

Higher than usual temperatures last summer drove record energy usage, and this, combined with higher natural gas prices and storm recovery costs, produced higher electric bills.

To help ease the burden, Entergy Arkansas worked closely with community agencies on a series of measures including more than \$1.2 million in shareholder contributions that provided \$150 bill credits for eligible customers, fee waivers, and more than \$1 million in donations to nonprofits that provide emergency bill payment assistance for elderly and disabled customers through The Power to Care and other programs.

Entergy Arkansas employees teamed up with partners to complete several energy efficiency projects for low-income customers across the state, and distributed EE kits and information in 40 communities.

Creating sustainable value for Arkansas through philanthropy and volunteerism

Giving back to our communities through philanthropy, volunteerism and advocacy are integral to our corporate mission.

We invest in solutions that attack the root causes of poverty, support education and workforce development, and protect and preserve the environment. And, to ensure our efforts will achieve a better and more sustainable future, we align our Corporate Social Responsibility initiatives to the United Nations Sustainability Goals.

Our shareholders contribute \$16 - \$18 million annually to strengthen the communities we serve. In 2022, they contributed \$3.4 million to non-profit partners in Arkansas.

At Entergy Arkansas, our employees are not only dedicated to providing reliable power to our customers but also to giving back to the communities in which we live and work. As a company, our mission is to continually improve the communities we serve.

Our employees carry out that commitment every day, providing thousands of volunteer hours to make our friends' and neighbors' lives better. In addition, our charitable foundation and our employee giving supports low income/poverty solutions, such as feeding the hungry and providing shelter, as well as education, workforce development and programs that help the environment, all of which make Arkansas a better place to live. "We Power Life" is more than a slogan. It encompasses so much more than keeping the lights on. It's about helping make our communities better so families can thrive. I'm so proud of the passion our team has for serving others, and we embrace that privilege each and every day.

Thank you,
Laura Landreaux
President and CEO, Entergy Arkansas

Corporate Social Responsibility

At Entergy we are committed to contributing to a society that is healthy, educated and productive. One in which the environment poses no threat to future generations, and none of our customers live in poverty. We are committed to creating sustainable value for all of our stakeholders, because we are only as strong as the communities we serve.

Operation Warm

Each year, Entergy Arkansas partners with Little Rock International Association of Fire Fighters (IAFF) Local 34 to choose elementary schools and provide each student at the school a new winter coat. Dubbed Operation Warm, the project raised enough funds to provide 800 coats to students in December of 2022.

Beat the Heat bill assistance

Entergy Arkansas increased corporate contributions by \$1.8 million and implemented a series of measures to assist our customers and communities during extreme summer heat and inflation. This included more funding for programs that helped qualified customers pay their electric bills, as well as donations of fans, food, school supplies and energy efficiency kits to help families stretch their monthly budgets.

Literacy and education efforts

Entergy Arkansas employees spend hours in schools and aftercare programs across the state, mentoring, reading and helping students achieve their educational goals. Whether it's reading to a class of elementary kids or one-on-one homework assistance, our employees put in the time and effort to encourage young learners. Corporate contributions also go to bolster those efforts with new books and materials for students and teachers, as well as scholarships.

Addressing food insecurity

Hungry bellies are not only painful, but they distract from the important things families need to focus on to live their best lives. By donating dollars and hours to foodbanks across the state, Entergy Arkansas employees address a huge issue in the state, where 1 in 4 people lives in poverty and 17% face food insecurity.

STEAM-focus on students

It's both inside and outside the classroom that Entergy Arkansas puts a focus on STEAM opportunities! Through the Museum of Discovery, "Girls in STEM" workshops, Accessing Careers in Energy Summit and The Repertory Theatre, we encourage young people to stretch their imaginations and consider the possibilities of a future in any number of fields that will be the jobs of tomorrow.
