Environmental:	\$ 191,313
Healthy families:	\$ 184,198
Arts and culture:	\$ 31,326
Disaster relief/recovery:	\$ 14,143
Grand Total:	\$ 2,769,709

Creating sustainable value for Texas through philanthropy and volunteerism

Giving back to our communities through philanthropy, volunteerism and advocacy are integral to our corporate mission.

We invest in solutions that attack the root causes of poverty, support education and workforce development, and protect and preserve the environment. And, to ensure our efforts will achieve a better and more sustainable future, we align our CSR initiatives to the United Nations Sustainability Goals.

Our shareholders contribute \$16 - \$18 million annually to strengthen the communities we serve. In 2022, they contributed \$6.4 million to non-profit partners in Texas.

Making a difference in Texas communities

Volunteering is one of the most important ways Entergy employees power life in our communities. In 2022, employees in Texas dedicated more than 17,467 hours of volunteer service valued at more than \$523,136.

Activities included:

- Packaging and distributing food at Southeast Texas Food Bank and Montgomery County Food Bank.
- Home energy makeovers and weatherization for low-income families with Habitat for Humanity.
- Free tax preparation to help qualifying customers claim federal Earned Income Tax Credits.

Stepping up to help with bills

Higher than usual temperatures last summer drove record energy usage, and this combined with higher natural gas prices and storm recovery costs produced higher electric bills. To help ease the burden, Entergy Texas worked closely with regulators on a series of measures including more than \$1.3 million in shareholder contributions that provided \$150 bill credits for eligible customers, fee waivers, and more than \$1 million in donations to nonprofits that provide emergency bill payment assistance for elderly and disabled customers through The Power to Care and other programs. Our employees teamed up with Habitat for Humanity to provide home weatherization makeovers and hosted energy efficiency fairs to help residents manage their bills.

Entergy Texas' mission to our customers and communities extends beyond just reliably providing power.

We believe we have a moral obligation to help find lasting solutions for our customers.

We are determined in our mission to help communities grow and create opportunities today and for future generations.

Thank you,

Eliecer Viamontes

President and CEO, Entergy Texas

Corporate Social Responsibility

At Entergy we are committed to contributing to a society that is healthy, educated and productive. Where the environment poses no threat to future generations and none of our customers live in poverty. We are committed to creating sustainable value for all of our stakeholders because we are only as strong as the communities we serve.

Kids to College

Entergy is powering Kids to College by dedicating matching funds for child savings accounts across our four-state service areas. The program is made possible thanks to an endowment fund created in honor of Entergy's late Chairman and CEO J. Wayne Leonard.

Fighting food insecurity

Entergy Texas partnered with local food pantries and non-profits to make the holiday season a little brighter for families in Southeast Texas. The company donated \$105,000, funded by Entergy shareholders, to local organizations to help provide nutritious foods to families in need.

Making homes more energy efficient

Summer is near, and with weather remaining one of the leading contributors to high energy bills, Entergy Texas teamed up with Habitat for Humanity of Montgomery County, TX to help residential customers save energy and money. Volunteers and energy efficiency contractors helped weatherize more than 40 Habitat for Humanity homes in the Conroe area.

Expanding electric vehicle access

To help meet the growing sustainability needs of its customers, Entergy Texas presented a \$255,000 grant to Sam Houston State University (SHSU) to help fund the installation of an electric vehicle charging station powered by 80 photovoltaic solar panels.

Staying cool and saving money

Heating and cooling costs make up about 55% of an average customer's electric bill, so taking steps to save energy can help customers better manage usage when temperatures are hot. Fans are a simple tool that can provide relief from the summer heat and allow customers to save money on their energy bill, which is why Entergy Texas is donating 1,300 box fans to 36 cities and agencies across Southeast Texas.
