

NOTIFICATION

A representative of Entergy inspected the power lines around your residence and determined some of the trees have grown too close to the overhead power lines and could interrupt electric service to you and your community.

Entergy's professional tree contractors will be in your neighborhood within the next few weeks to trim/remove all trees away from the power lines in accordance with modern arboricultural standards. You can access Entergy's website at entergy.com for more information.

It is not necessary that you be home on the day of the trimming; contractors will proceed with trimming and cleanup. If you have any questions, concerns or need to make special arrangements due to locked gates or animals, please call the number listed below between the hours of 8:00 a.m. – 5:00 p.m., Monday through Friday.

Thank you for your cooperation in our efforts to provide reliable electric service.

Inspector: _____

Phone: _____

Date: _____
